| Long Description:  | Wound Closure Strips are adhesive strips designed to gently hold the edges of minor cuts and wounds together. They provide secure, non-invasive support while allowing the skin to breathe and heal naturally. Easy to apply and comfortable to wear, they are ideal for supporting wound closure and protecting the affected area. |                                                                                    |
| Bullet 1:          | Helps gently hold the edges of minor cuts and wounds together for closure.                                                                                                                                                                                                                                                          |                                                                                    |
| Bullet 2:          | Flexible, breathable material designed for comfortable wear.                                                                                                                                                                                                                                                                        |                                                                                    |
| Bullet 3:          | Easy to apply and suitable for use on clean, dry skin.                                                                                                                                                                                                                                                                              |                                                                                    |
| Bullet 4:          | Ideal for supporting wound closure and helping protect the affected area.                                                                                                                                                                                                                                                           |                                                                                    |
