KEEPING EMPLOYEES SAFE IN THE HEAT

Heat Stress Kits for Worker Safety

Summertime brings the risk of Heat-Related illness to many types of industries.

- 1 Heat Stroke
- 2 Heat Exhaustion
- 3 Heat Cramps
- 4 Heat Rash

OSHA® OSHA launched an indoor and outdoor heat-related hazards enforcement program on **April 8, 2022** to increase inspections in over 70 indoor and outdoor high-risk industries.

During hot weather body temperatures can rise to dangerous levels if employees don't hydrate and rest in the shade. Heat illnesses and heat related deaths, such as heat exhaustion and heat stroke, are preventable. The portable and weatherproof Heat Stress First Aid Kit helps you stay OSHA compliant and keeps your employees safe from dangers of excessive heat.
