# Be Prepared for Burns in High-Risk and Remote Areas

Respond to Burn Emergencies at the scene – especially higher-risk areas where arc flash, electrical contact, explosions, flames, high heat material, liquid and steam can occur.

## Did You Know?

Five to 10 arc flash explosions occur in electric equipment every day in the United States. This number does not include cases in which the victim is sent to an ordinary hospital. Instead, these incidents are so severe the victims require treatment from a special burn center.
